

T5 Glass Tube Grow Light (Full Spectrum)

FEATURES AND BENEFITS

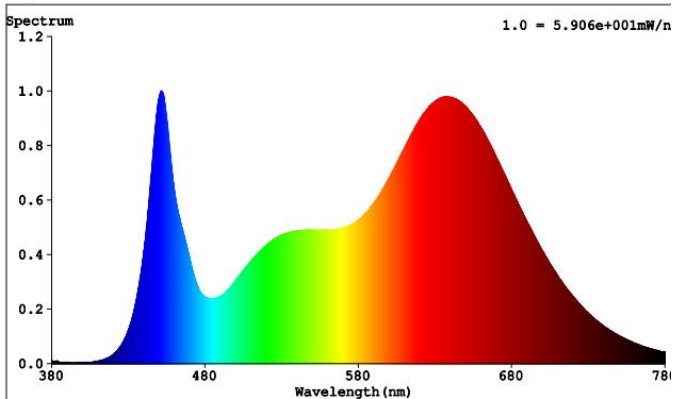

- Replaces existing fluorescent T5 lamps
- Provides exceptional grow while offering massive reduction in energy consumption
- Sustains a long life, reducing the needs for maintenance costs;
- Application in urban farming, vertical farming and commercial facilities
- With PC structure – can be used in damp location environments
- Easy installation: Double ended power input
- Plug and play, work without ballast
- Lifespan: 50,000hrs
- Warranty: 5 years

PRODUCT SPECIFICATIONS

Body	Glass
Lens	Clear
Input Voltage	120-277vac,50/60hz
Power Factor	0.9
Spectrum	Full spectrum
Length	2ft or 4ft
Lifetime	50,000 Hours
Warranty	5 Year
Environmental Requirements	Operation temp:-20°-45℃ Storage temp:-20°to3℃ Relative Humidity:45%-85% Non-corrosive environments
Size	A(max):1149.0 mm B(min):1153.7 mm B(min):1156.1 mm C(max):1163.2 mm D(max):16 mm

Spectrum

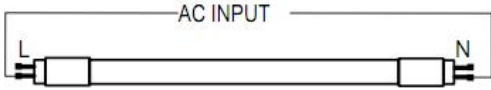

SPECIFICATION

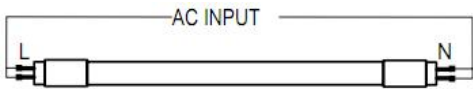

Item No.	Power	Spectrum	Voltage	Frequency	PF	Beam angle
PVT5-4FT-24WBGCP-22K	24W	Full Spectrum	AC120-277V	50/60Hz	0.9	120°Clear

Installation Method:

TYPE B(AC directly, double end ballast bypass) - Assembly introduction:

OR

Voltage Input: AC120-277V 50/60Hz
